1. All Teams:

- a. Write the guest player name(s) onto the bottom of the official team roster that you are using for the tournament.
- b. Upload the guest player pass(es) using the same upload procedure listed in point number #3 above, selecting the "Guest Player Pass PDF" option.

 - ii. Should you need to add a guest player later in the process, after having already upload a guest player PDF, you will need to create a new PDF containing all guest players on one document. That new document will be uploaded and will replace the originally uploaded guest player document.
- c. Guest players must have the same type of player passes as your other players. **Using mixed rosters and player cards from different organizations (US Club vs. USYSA) is not allowed.**

2. Guest Player Pass Procedures for USYSA / GotSport registered teams:

Some clubs and state associations are using GotSport for player registration and team roster generation. GotSport, in conjunction with the leagues and state associations, are NOT producing physical player passes as they have in the past. All player passes are digital and online within a team's GotSport account. When in need of using a USYSA player as a guest player for your team you will need to do the following.

- a. Ask the coach or administrator from the team that your guest player is coming from to download and export the digital player pass from within his/her GotSport team system (instructions on how to do that below).
- b. Have the coach or administrator forward a PDF of that player pass to the player, or to you as the coach / manager of the team that needs to use that guest player.
- c. Upload that guest player pass into your team GotSport account as listed above, selecting the label of "Guest Player Passes PDF".

3. Instructions for coaches and administrators on how to download individual player passes from within GotSport:
